Search and Rescue Alerts Localization Deliverable Summary

Filipe Castro, Daniel Despain, Sarah Lemmon, Beth Page, Tanner Sperry

Enclosed is each of the following parts of the deliverable for the SARA project. Each file is explained below

- **Glossary.pdf.** This file lists the key words in English and their appropriate translations.
- **Stylesheet.pdf.** This file lists the writing style to be used in English and all subsequent translations. It also lists the parts that should remain in English.
- **Deliverable Description.pdf** -- this file lists the description of each part of the deliverable
- **Files**
  - **original index.html** - this is the original English file that was translated.
  - **index_##.html** - these are the translated English files. They also add a way to switch between the languages, which was not included in the original.
  - **psuedo_index_##.html** - these are the psuedo-translated files. They show additional
  - **images** - this folder contains all the images used in the site, including icons and photographs
  - **javascripts** - this folder contains javascript files that are included in the index.html files. They enable things like the rotating banner and the popover language picker.
  - **stylesheets** - this folder contains the cascading style sheets that dictate how things should appear on the page.
